

Travis County ARES - Introduction to Solar Weather and HF propagation

Written by Administrator - Last Updated Wednesday, 28 September 2011 23:27

Here is a training and reference document by Lew Thompson, W5IFQ/AAA6TX. It was presented at the 9/2011 TCARES meeting. The training is on how our Sun changes and the effects of solar weather on HF communications and signal propagation. The 1.4mb .pdf document [may be downloaded here](#)
